Since our founding in 2009, the Center has operated in the black each year by our prudent management of our generous donor resources. In 2023 the board had the opportunity to add a highly qualified full time Executive Center director that will take us in new directions and broaden our reach in the communities we serve. Our Center is also being relocated to a stand alone office on the campus of Holy Name of Jesus Parish in St. Petersburg Fla. These two decisions will effect our program efficiency ratio in the near term but we have a great degree of confidence it will vastly allow our Center to grow in the long term. Your continued support is even more important now as we step forward to a new exciting chapter for the St Gianna Center. We deeply appreciate those that have been so generous.
